The scope of engagement also includes the following:

The assurance covers the information of the following subject matters in the Business Responsibility and Sustainability Report (BRSR Core KPI's) for the reporting period of 1st April 2025 to 31st March 2026 (FY 2025-2026).

- Green-house gas (GHG) footprint - P6:E7
- Water footprint - P6:E3 and P6:E4
- Energy footprint - P6:E1
- Embracing circularity - P6:E9
- Enhancing Employee Wellbeing and Safety - P3:E1(C), P3:E11
- Enabling Gender Diversity in Business - P5:E3(B), P5:E7
- Enabling Inclusive Development - P8:E4, P8:E5
- Fairness in Engaging with Customers and Suppliers - P9:E7, P1:E8
- Open-ness of business – P1:E9

The selected information is reported in accordance with Business Responsibility and Sustainability Report (BRSR Core KPI's).

The details of subject matters and their boundaries within the scope is described in Appendix A and Appendix B in this independent assurance opinion statement.

Opinion Statement

We have conducted a reasonable assurance engagement on the sustainability information described in the "Scope" above (BRSR for FY 2025-2026 covering core KPIs mentioned in Annexure-I: format of BRSR core, provided by SEBI, covering disclosures on Green-House Gas (GHG) footprint, Water footprint, Energy footprint, Embracing Circularity, Enhancing Employee Wellbeing and Safety, Enabling Gender Diversity in Business, Enabling Inclusive Development, Fairness in Engaging with Customers and Suppliers, Open-ness of business).

In our opinion, the accompanying sustainability information is fairly presented, in all material aspects, in accordance with the Business Responsibility and Sustainability Report (BRSR Core KPI's) for the reporting period 1st April 2025 to 31st March 2026.

Also, BSI has conducted a limited level assurance engagement on the sustainability information (non-financial ESG information covered under material topic KPIs) described in the "Scope" above.

In our opinion, based on the procedures we have performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that the accompanying sustainability information is not prepared, in all material respects, & "in accordance with" the GRI universal standards 2021, for the reporting period 1st April 2025 to 31st March 2026.

While assessing the information, the evidences were gathered to ensure that the organization has practices and procedures in place to demonstrate the characteristics of relevance, completeness, reliability, neutrality and understandability in their data collection, consolidation and presentation in the annual ESG report.

Methodology

Our assurance engagements were carried out in accordance with ISAE3000 (Revised) assurance standard following the principles of Integrity, Objectivity, Professional competence and due care, Confidentiality, and Professional behaviour. ISO 14064-3:2019 assurance standard is used for information related to GHG statement. Our work was designed to gather evidence on which to base our opinion conclusions.

We undertook the following activities:

- Assessment of the organization's reporting and management processes concerning this reporting against the principles of relevance, completeness, reliability, neutrality, understandability.
- Data verification on reasonable level sampling including asking for internal controls and implementation of internal controls, SOPs for data gathering and reporting mechanism for BRSR core KPIs.
- Data verification on limited level sampling for non-financial ESG information covered under material topics in the annual sustainability report "in accordance with" GRI universal standards 2021(except the qualitative claims).
- Consolidation of ESG information of different plants at corporate level.
- Interviews with staff involved in sustainability management, Sustainability/BRSR KPI preparation, data management and calculation of final numbers.
- Document review of relevant systems, policies, and procedures wherever available.
- Review of supporting evidence for claims made in the reports.
- Traceability of information from the origin and testing at site for measurement procedures

- Review of data pertaining to the sampled units of JKTIL, to confirm the data collection processes, record management practices, and check ESG material KPI's physically and through virtual mode.

Responsibility

JK Tyre & Industries Ltd. (JKTIL) is responsible for the preparation and fair presentation of the sustainability information in accordance with the agreed criteria. BSI is responsible for providing an independent assurance opinion statement to stakeholders giving our professional opinion based on the scope and methodology described.

Independence, Quality Control and Competence

a. Water consumed during the expansion projects, that is provided to the contractor for usages are not considered in the total consumption figure.

b**.** Energy consumption total does not include energy consumed in movable vehicles under direct control/ownership.

C. Trading houses consideration is limited to raw material (RM) purchases only, the denominator considered in the ration calculation is only RM purchased amount, so as to establish a relation in the ratio. Also, trading houses

definition is interpreted considering the purchase of product from the vendor for JK Tyre usages, this is irrespective of them acting as manufacturer of other products which has no relation with JK tyre buying.
